## PROFESSIONAL SUMMARY

Passionate Computer Science student with strong foundation in **Node.js, JavaScript, and full-stack web development**. Experienced in building scalable web applications using modern technologies including React.js, Express.js, and MongoDB. Demonstrated problem-solving abilities through competitive programming with **350+ LeetCode problems solved**. Eager to contribute to innovative backend solutions and optimize web application performance in a professional development environment.

## TECHNICAL SKILLS

### Backend Development

Node.js, Express.js, RESTful APIs  
Server-side JavaScript, Authentication

### Frontend Technologies

HTML5, CSS3, JavaScript (ES6+)  
React.js, Tailwind CSS, Bootstrap

### Database Management

MongoDB, MySQL, Database Design  
Query Optimization, Data Modeling

### Programming Languages

JavaScript, C++, Python  
Data Structures & Algorithms

### Development Tools

Git/GitHub, VS Code, Postman  
npm/yarn, Netlify, Command Line

### Prior Experience

Vue.js, Next.js, Socket.io  
JWT, Testing Frameworks

## EDUCATION

### B.Tech Computer Science Engineering

Sagar Institute July 2023 – June 2026

Research & Technology, Bhopal

**CGPA:** 7.00/10.00

**Relevant Coursework:** Data Structures, DBMS, Web Technologies, Software Engineering

### Higher Secondary (PCM)

Flower Vale Higher Secondary School, 2021  
Bhopal

**Percentage:** 85.8% (MP Board)

## PROJECTS

### E-Commerce Web Application

Node.js, Express.js, MongoDB, React.js, JWT Authentication

- Developed full-stack e-commerce platform with user authentication and product management system
- Implemented RESTful APIs for product catalog, shopping cart, and secure payment processing
- Designed responsive UI using React.js and Tailwind CSS for optimal user experience
- Integrated JWT-based authentication and authorization for secure user sessions

[GitHub Repository](#)

### Task Management API

Node.js, Express.js, MongoDB, RESTful Architecture

- Built comprehensive task management system with CRUD operations and user role management
- Developed scalable backend architecture handling multiple concurrent users efficiently
- Implemented data validation, error handling, and comprehensive API documentation
- Optimized database queries resulting in 40% faster response times

[GitHub Repository](#)

### Portfolio Website

HTML5, CSS3, JavaScript, Responsive Design

- Built fully responsive personal portfolio with dark mode and multi-language support
- Implemented contact form with email validation and smooth animations
- Deployed using Netlify with continuous deployment from GitHub
- Achieved 95+ Performance Score on Google PageSpeed Insights

[Live Demo](#)

## ACHIEVEMENTS & CERTIFICATIONS

- MongoDB University:** Completed MongoDB certification with badges
- Infosys SpringBoard:** Java Programming Certificate (Dec 2023)
- Problem Solving:** 350+ LeetCode problems solved
- Competitive Programming:** Active participant in coding contests
- Open Source:** Contributing to GitHub projects and repositories

## KEY STRENGTHS

- Quick Learner:** Rapidly adapts to new technologies
- Problem Solver:** Strong analytical and debugging skills
- Team Player:** Excellent collaboration abilities
- Time Management:** Efficiently handles multiple projects
- Continuous Learning:** Stays updated with latest trends
